

CUSTOM NOTEPADS

Keep your brand on the top of the list

One of the most effective ways to brand is by putting your logo in front of current and potential users on a daily basis. Fully customizable, Notepads can be used to display taglines, logos, contact information and more. They're ideal for jotting down notes and can even double as letterhead if produced on 8.5" x 11" pads. All Notepads come with sturdy chipboard backings. Choose from 70lb premium uncoated text pages with maximum brightness, or 70lb Linen uncoated pages.
